Our restaurant draws inspiration from regional traditions, local ingredients, and cherished family recipes, all while embracing innovation. We reimagine the flavors of the Tokaj region with a modern culinary approach, combining contemporary techniques and creativity to offer guests not only a taste experience but also a visual delight.

We maintain close relationships with local farmers and small-scale producers, ensuring that the ingredients we use are always fresh and of the highest quality. Our kitchen regularly features Tarcál cheese, Mangalica pork from Gesztely, and poultry such as chicken and duck sourced from nearby farms. When it comes to fish, we place special emphasis on both freshness and ethical sourcing.

We are proud to be listed among the Michelin Guide-recommended restaurants of the Tokaj wine region, and to have been awarded two chef's hats by the 2026 Gault & Millau culinary guide, a recognition of our team's dedication and passion.

Our wine list exclusively features selections from the Tokaj wine region, currently offering over 140 different labels. Alongside bottles from the most renowned wineries, we also highlight the unique creations of young, up-and-coming winemakers. This provides our guests with a comprehensive introduction to the diversity and richness of Tokaji wines.

In addition to our wine selection, our signature cocktail menu deserves special mention. We reinterpret classic drinks using Tokaji wines and local ingredients, creating refreshing and original flavor combinations that offer a truly unique tasting experience.

- ❖ 1 plunge pool
- ❖ 2 seasonal outdoor pools (swimming pool and children's pool)

The wellness area can be accessed through the glass door located halfway down the corridor to the right of the Reception. Upon entering, you'll find the lifeguard station on the left. Just past this point, a spacious pool area opens up—this is Level 0, where guests will find the main swimming pool and the atmospheric cave pool. On the left side of the pool hall, the jacuzzi and sauna world provide complete relaxation. To the right of the lifeguard station, passing through a relaxation area, you will find the Triola wellness bar and restaurant, a popular venue for special lunches, where you can complete your experience with refreshing drinks and special dishes. Changing rooms and restrooms are located on Level -1, while additional restrooms are available on the upper level, accessible by both stairs and elevator. The first floor features a fitness room, beauty salon, and a cozy relaxation area. From here, guests can access the sun terrace and seasonal outdoor pools (swimming and children's pools). These outdoor areas are also reachable from Level 0. For guests staying on the upper floor, wellness is easily accessible directly from the first-floor hallway, allowing convenient access to the pool area via elevator or stairs. Please note that within the wellness area (Levels 0 and 1), guests are required to wear swimwear and slippers to ensure a comfortable and hygienic environment for all.

Indoor Pools

Cave Pool

One of the highlights of our wellness area is the U-shaped cave pool, offering a truly unique and immersive experience. Small, round spa rooms open from the main water corridor, each equipped with hydro-massage features. The water temperature is a soothing 35°C.

Indoor Swimming Pool

Surrounded by elegant columns, our 15 x 6-meter swimming pool provides a stunning visual experience. The water temperature ranges between 26–28°C.

Jacuzzi

Located poolside, our elegant Jacuzzi offers water at 35°C, ensuring deep relaxation in a tranquil setting.

Outdoor Pools (Seasonal)

Outdoor Swimming Pool

Available during the summer season, the outdoor swimming pool measures 14 x 7 meters, with a depth of 1.19 meters and water temperature ranging from 29–32°C.

Children's Pool

Our seasonal outdoor children's pool ensures endless fun for our youngest guests. It measures 4 x 7 meters, with a depth of 0.2–0.5 meters, and is maintained at a comfortable 29–32°C.

Saunas, Experience cabins

Bio Sauna

The bio sauna offers a modern wellness experience that combines the benefits of a traditional Finnish sauna and an infrared sauna. It operates at a lower temperature (typically between 50–60°C) with higher humidity, providing a gentler effect on the body and respiratory system, making it ideal for guests who prefer a milder sauna experience.

Finnish Sauna

Our traditional Finnish sauna operates at 85–90°C and is designed to detoxify the body, boost metabolism, relax muscles, and stimulate circulation. It strengthens the immune system and enhances skin elasticity. Built from wood and known for its dry heat, the Finnish sauna is the most widely used sauna type worldwide.

Infrared Sauna

Operating at around 50°C, the infrared sauna uses infrared rays that penetrate 4–6 mm beneath the skin's surface, loosening toxins and impurities. These are then flushed out through the sweat glands, making it a highly effective detoxifying experience that also boosts the immune system and supports overall well-being.

Salt Room

The salt room is suitable for all ages and offers therapeutic benefits, especially for those with respiratory conditions. Thanks to the special microclimate created by the built-in salt bricks and controlled humidity, the salt room supports natural breathing and overall relaxation.

Outdoor Finnish Sauna

The outdoor Finnish sauna operates similarly to the indoor version but offers the added benefit of exposure to the open air. After a sauna session, the cooler outdoor temperatures promote a quicker cooling phase, enhancing the refreshing effect.

Hiking Tours

❖ **Blessing Christ Statue and Mining Lake Tour**

Route details: Distance: 1.5 km, Duration: 30 minutes, Difficulty: easy
Route: Andrassy Manor -> Main Street -> Szőlő Street -> Könyves Kálmán Street
This easy and scenic hike connects the most beautiful sights of Tarcál. The panoramic route starting from the village winds along a hillside planted with fruit trees up to the towering Blessing Christ statue. Standing next to Hungary's largest Christ statue, you will be rewarded with a majestic panorama featuring the seemingly endless vineyards and the mining lake carved into Kopasz Hill.

❖ **Tarcál Panorama Route**

Route details: Distance: 10.3 km, Duration: 4 hours, Difficulty: easy
Route: Tarcál -> Blessing Christ statue -> Mining lake -> Kopasz Hill -> TV Tower -> Finánc Hill Lookout -> Tokaj

It's worth continuing from the Blessing Christ statue hike to admire the panoramic views from many beautiful spots. Heading down at the panorama route fork to the left, you reach the mining lake. From the lake, climb to the TV tower on Kopasz Hill, then cross the hill to reach Tokaj, where you can admire the confluence of the Tisza and Bodrog rivers from the Finánc Hill lookout — a true spectacle. The program can be complemented with a picnic. Reservations must be made at least 24 hours before the chosen date at the Reception to use this service.

❖ **Megyer Hill Mountain Lake and Hercegkút**

Distance from Tarcál: 38 km (34 minutes)

Route details: Distance: 20.6 km, Duration: 6 hours, Difficulty: medium, Elevation gain: 320 m

Parking: Botkői or Ciróka parking lot

Route: Sárospatak -> Megyer Hill lookout -> Mountain lake -> Makkoshotyka -> Hercegkút -> Sárospatak

This circular tour starting from Sárospatak first stops at the Megyer Hill mountain lake. Surrounded by huge rock walls, this lake is not a mountain lake in the true sense: since the 15th century, stone suitable for millstones was mined here — two millstones left behind testify to this. After the mine closed, the excavation pit filled with water forming today's lake. Adventurers should try the newly built via ferrata route next to the lake, where rock climbing can be safely practiced along rope courses. The tour passes through the charming dead-end village of Makkoshotyka and the Swabian settlement of Hercegkút, famous for its two special rows of wine cellars, where it is also worth visiting the Swabian folk house.

Make your bike or electric scooter tour even more memorable by visiting local wine cellars, picnicking in nature, or exploring the most beautiful vineyards in the area!

Please note that rental requests should be made at least 2–3 days before your preferred date at the Reception. We provide instructions, locks, helmets, and reflective vests with the bikes and scooters. The program is recommended in snow-free conditions, from April to December.

❖ **Panorama Tour**

The Blessing Christ statue in Tarczal can be reached on foot: from the hilltop you also have a view of the turquoise-colored mining lake. At the end of Tarczal, continue on a small concrete road to the St. Teresa Chapel, where the rhythmic rows of vineyards and the small white church above them provide a delightful sight.
